The thrilling, New York Times–bestselling sequel to The Kiss of Deception: Held captive in the barbarian kingdom of Venda, Lia and Rafe have little chance of escape. Desperate to save her life, Lias erstwhile assassin, Kaden, has told the Vendan Komizar that she has the gift, and the Komizars interest in Lia is greater than anyone could have foreseen. Meanwhile, nothing is straightforward: There’s Rafe, who lied to Lia but has sacrificed his freedom to protect her; Kaden, who meant to assassinate her but has now saved her life; and the Vendans, whom Lia always believed to be barbarians. Now that she lives among them, however, she realizes that may be far from the truth. Wrestling with her upbringing, her gift, and her sense of self, Lia must make powerful choices that will affect her country . . . and her own destiny. The Heart of Betrayal by Mary E. Pearson drives up the stakes and the romance, and will leave readers desperate to read book three in the Remnant Chronicles, The Beauty of Darkness: “It’s rare that the second book in a series is as good—or perhaps better—than the first, but that’s the case here.” —Booklist, starred review, for The Heart of Betrayal

It didn't take me long to devour Mary E. Pearson's The Heart of Betrayal, it was the kind of read you cant put down and totally forsake Twitter for! Once again, I found myself lost in this fantasy world shes created and love every minute of! Naturally, I was a little sketchy on the details of what happened in The Kiss of Deception, but the gist of what I remembered was, the Assassin and Prince are totally not who I initially thought they were! LOL! Kaden, the Assassin, has brought both Lia and Rafe to Vendas Komizar, the ruler. He still doesnt know that Rafe is in face the prince of Dalbreck, but knows he has a connection to the prince. Rafe claims to be a messenger of sorts basically. And Lia, well, Lia is Lia. But Kaden claims she has the gift. He says this in order to save her, for Venda doesnt take prisoners. Once again we have the points of view of Lia, Kaden, Rafe and occasionally, Pauline. Im always thrilled to have Kadens point of view, because hes the Assassin! And yes, we capitalized that because hes that good! That Kaden fell for Lia strikes a chord with me. The big, badass falling in love, which the wicked see as something so trivial. I have a soft spot for him, but alas, I do find myself liking Rafe the most! But Kaden, badass that he may be, is still a good man at heart. He goes to great lengths to protect Lia while shes a prisoner at the castle. Hes never cruel to her and when he does start getting pissy, Lia is quick to put him in his place! The story of this book is basically Lia and Rafe trying to plot their escape. They cant stay here, though the Komizar does have plans for Lia, they will lead to nothing good. Escape is essential, but they must wait for Raes crew to come along and help them out. And as the days go by, persistent danger is the only thing arriving! For the longest time, this one was starting to read like a contemporary-fantasy. Yes, thats probably a conundrum, but there wasnt much magic going on to make things...magical. Though we do get glimpse of it rising. Or at least, I like to think so. Lia is supposed to have the gift, but what said gift is, is not something I feel I have a grasp on yet. Theres still excerpts from long ago scripts and texts that seem to be steering the gift in the direction of Liss fate. The ending, oh the ending was quite spectacular. And decidedly, cruel in some ways, because we have yet another cliffhanger. Though it was definitely an intense and hair-pulling screaming kind. Because there is one more book to have! Goodreads shows a third untitled book to release next year, so this is not the end my friends! Remember that once you start screaming! Overall Rating 5/5 stars
